Forecast for Wednesday 26 Jun 2024

Weather: Remaining warm and dry. Chance of some mist and fog patches quickly clearing to leave a fine day with lengthy sunny spells although the odd afternoon shower cannot be ruled out. Cloud cover increasing during the evening.

Chance of cloud-free hill tops above 600m: 80% quickly becoming 95% or more by mid-morning.

Low cloud and visibility: Mediocre visibility in early mist and fog patches in valleys, these quickly clearing to give a very good visibility all-around by mid-morning, with distant hills clearly visible. Some temporary reductions in and around any showers.

Freezing Level*	3000m	3000m	3000m	3000m	2900m	2900m	2800m

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Warm temperatures and high UV levels so appropriate sun protection and adequate water recommended. Pollen levels also very high.

Recent rainfall: measured at Neuadd: altitude 353m
